“Since the Solar Pumping System was installed in our barangay the people were grateful because it made our life much more better. They don't need to go into the hustle of getting from the artisan well and carrying heavy load of containers to bring water to their home. Now they can have it free and easy and the best thing is that it comes from a sustainable and an environmental friendly system. As long as there is sunshine there is water!”

“Sukad na nabutangan mi og Solar Pumping System sa among barangay, ang mga tawo kay magapasalamaton gayud kay na arang-arang ilang pangamuyo. Dili na sila kinahanglan mo timba or mukuha og tubig sa tabay kay bug.at kaayo maghakot padulong sa balay. Karon libre na ang tubig og sayon og diretso na sa among mga panimalay. Ang mas maayo pagayud kay dili makadaot sa atong palibot. Basta dunay adlaw duna pud libre tubig.”
